Local Culture, International Viewpoint

OUR AIMS AND OBJECTIVES

KS International has members throughout the world to deal with your international business requirements.

All the member firms are able to offer a personal service which focuses on having a thorough understanding of your particular international needs. Each member firm is an independent legal entity in its own right, the operation of which is controlled in that country. This ensures the firm has complete knowledge and understanding of the local culture, which is vital when setting up a new business.

Each member firm prides itself in keeping up-to-date on international matters, including tax, and through regular contact between all KS International members. High standards excellence are maintained throughout the organization.

The KS International network consists of well-respected firms providing high technical standards and specialized services. Our international organization aims to provide commercial and practical advice based on specific needs.

Our priority is for the individual partners of member firms to give personal attention to clients' needs.
