Tax Planning & Preparation

Management and Strategic Consulting

Who is Calibre CPA Group?

Founded on a mission to **provide services of a superior calibre**, Calibre CPA Group was established by several CPAs whose careers have focused on providing a comprehensive array of audit, accounting, tax, and consulting services to multiemployer benefit funds throughout the country. We're now one of the major "niche" CPA firms in the country that has devoted a large part of our practice to this sector.

How Can Calibre CPA Group Help Me?

Our firm is unique among firms that perform payroll (employer compliance) audits for multiemployer benefit funds. Since we've expended a tremendous amount of resources to providing this value-added service to our clients, we feel we excel in this area. Here's why –

A major portion of our firm's practice has focused on employee benefit funds. Since we know this territory, it's only natural we recognized the importance of payroll audits for our multiemployer benefit fund clients.

Our firm is one of the few CPA firms in the country with a national payroll audit program in place. Our staff of auditors, who are devoted exclusively to providing payroll audits, annually perform over 1,000 audits in almost every state in the continental United States. Our audits are conducted using our proprietary program. This program draws on the performance of thousands of payroll audits and represents a field-tested approach to payroll auditing with procedures that are time-tested and provide detailed coverage

of employer records, resulting in efficiency, accuracy, and confidence of results. More importantly, our procedures are flexible, enabling us to customize our approach, as necessary, to meet the specific contract terminology of our clients' collective bargaining agreements.

Why Should I Use Calibre CPA Group?

By taking part in our national payroll audit program, you will be sharing resources when we conduct payroll audits for our other clients. You'll benefit from faster turnaround and potential savings in out-of-pocket expenses.
